Mac basics

Shortcuts and tips for new Mac users. On a Mac, ⌘ Command does what Ctrl does on Windows. It's the key next to the space bar.

Keys

⌘ Command	Used in almost every shortcut
⇧ Shift	Hold while typing a letter for one capital
⇪ Caps Lock	All capitals until you press it again (green light)
delete	Deletes the letter to the left, like Backspace
Return	Same as Enter
esc	Closes a menu or cancels

Shortcuts

⌘ + C	Copy
⌘ + X	Cut
⌘ + V	Paste
⌘ + A	Select all
⌘ + Z	Undo
⌘ + Space	Spotlight: search for any app or file
⌘ + Tab	Switch between open apps (hold ⌘, tap Tab)
⌘ + T	New tab in Chrome
⌘ + W	Close tab or window
⌘ + Q	Quit the app completely
⌘ + Shift + 4	Screenshot of part of the screen (drag to choose)

Trackpad

Click	Press down with one finger
Right-click	Click with two fingers
Scroll	Slide two fingers up or down (sliding up moves the page down, like a phone)

Select text	Click and hold, then drag
See all windows	Swipe up with three fingers

Tabs, apps and windows

New tab	Click the + at the top of Chrome
Close a tab	Hover over the tab, click its ×
Switch apps	Click the app in the Dock, or ⌘ + Tab
🔴 Red dot	Closes the window (the app may stay open; click its Dock icon)
🟡 Yellow dot	Hides the window in the Dock
🟢 Green dot	Full screen. Move the mouse to the top and click it again to exit

Lost a window? Click the app's icon in the Dock, or swipe up with three fingers.
